**Subject:** Comments on Adjusting the NVOCC bond

To whom it may concern,,

I John Abisch, President of Econocaribe Consolidators whom operates under FMC license #16318N, would like to suggest that the FMC encourage the PRC to consider the entire bond the NVO currently holds per FMC requirements. The current bond is \$75,000 plus \$10,000 for each branch office. Thus many NVO's, including Econocaribe, whom have at least 5 branch offices already have a bond of at least \$125,000. Currently Econocaribe and many other NVO's have the additional \$21,000 PRC optional rider in addition to our regular FMC bond. If the FMC can get the PRC to "count" the entire bond currently posted, including the amount of the bond posted for the branch offices, even with the PRC increasing the bond requirement, this would actually have a slight reduction in the cost of the bond as we would no longer need to have this additional \$21,000 bond as our current bond exceed the \$122,000 the PRC is suggesting.
