

FEDERAL MARITIME COMMISSION FLEET MANAGEMENT COMPLIANCE REPORT 2012

On May 24, 2011, The President issued a Memorandum directing Federal agencies to implement Government-wide fleet management practices that will reduce gas used in Federal fleet vehicles. In order to assist with the Administration's Federal fleet performance objective, and to certify that all agencies are compliant with Executive Order 13514, the President directed, in part, the following:

Pursuant to motor vehicle management regulations, set forth at 41 C.F.R. 102-34.50, executive fleets are required to achieve maximum fuel efficiency; be limited in motor vehicle body size, engine size, and optional equipment to what is essential to meet agency mission; and be midsize or smaller sedans, except where larger sedans are essential to the agency mission. (A)ny executive fleet vehicles that are larger than a midsize sedan or do not comply with alternative fueled vehicle requirements must be disclosed on agency websites¹.

The Federal Maritime Commission leases one vehicle that meets the description of an executive fleet vehicle requiring disclosure.

Office of Assignment	Fuel Type	Make	Model	Compliant	Year
Office of Management Services	Gasoline/E85 (Flex Fuel)	Chevrolet	Tahoe	No	2011
